

## How to add Gateway as a trusted site in Firefox

Gateway Credit Union Ltd  
ABN 47 087 650 093 AFSL No 238293

1. By default Firefox accepts all cookies, including cookies which would allow a site to recognise you effectively forever. If this doesn't suit you, you can tell Firefox to delete all cookies when you close Firefox:
2. At the top of the Firefox window on the menu bar, click on the **Tools** menu, and select **Options...Preferences....**, then select the **Privacy** panel.
3. From the **Keep until** menu, select the **"I close Firefox"** option preference.
4. If you want to grant sites you trust the ability to store cookies permanently (e.g., to allow you to log in automatically to a site), click Exceptions..., enter the site address, and click Allow.
